

# Senior shiplift & maritime expertise.

Independent technical advisory for naval bases, shipyards, shipbuilders and repair facilities - focused on safe docking, reliable operation and practical execution.

**SHIPLIFT • TRANSFER • DOCKING**

## 50+ YEARS

Marine & technical experience

## WORLDWIDE

International project exposure

## DOCKMASTER

Hands-on docking expertise

## Practical expertise where it matters most

NAVCON Solutions AS provides senior technical support from first assessment through operation and lifecycle. The focus is straightforward: understand the system, understand the operation, identify the risk - and turn that into practical action.

### WHAT NAVCON BRINGS

#### Shiplift & Transfer Systems

Operational review, system assessment, troubleshooting, load considerations and upgrade support.

#### Inspection & Condition Assessment

Independent visual and operational assessment of equipment, infrastructure and maintenance condition.

#### Installation & Commissioning

Mechanical completion, pre-commissioning, functional testing, acceptance and operational handover.

#### Maintenance, Training & Lifecycle

Maintenance strategy, procedures, operator/Dockmaster training and lifecycle planning.

### WHO YOU ARE WORKING WITH

## Svein Gaarder

### Founder & Senior Maritime Adviser

More than five decades of marine and technical experience, with a background spanning shipboard engineering, technical management, ship repair, Dockmaster operations, installation, commissioning, maintenance and training.

### SELECTED EXPERIENCE
